

CHECK-OUT BOOKS WITH YOUR SMARTPHONE CONTACTLESS & NO MORE WAITING LINES

WISERF LIBRARYPAL - THE MOBILE CHECKOUT APP

WISERF LibraryPal is the new feature-packed mobile app that makes library borrowing and renew easier than ever. LibraryPal is a fully functioning library app that allows patron to access library services, including the ability to borrow and renew book by using patron smartphone.

Utilising either barcode or RFID technology, LibraryPal delivers a raft of features, including checkout of items, checking of account status, renew items, check library locations and hours of operation, as well as library latest news, event and announcement.

Patron just simply scan a book barcode with a smartphone camera and click the checkout button. Patron would need to place the checked-out books at a smart device to deactivate its security bit, then walk out the library, without waiting in lines at the circulation counter.

KEY FEATURES:

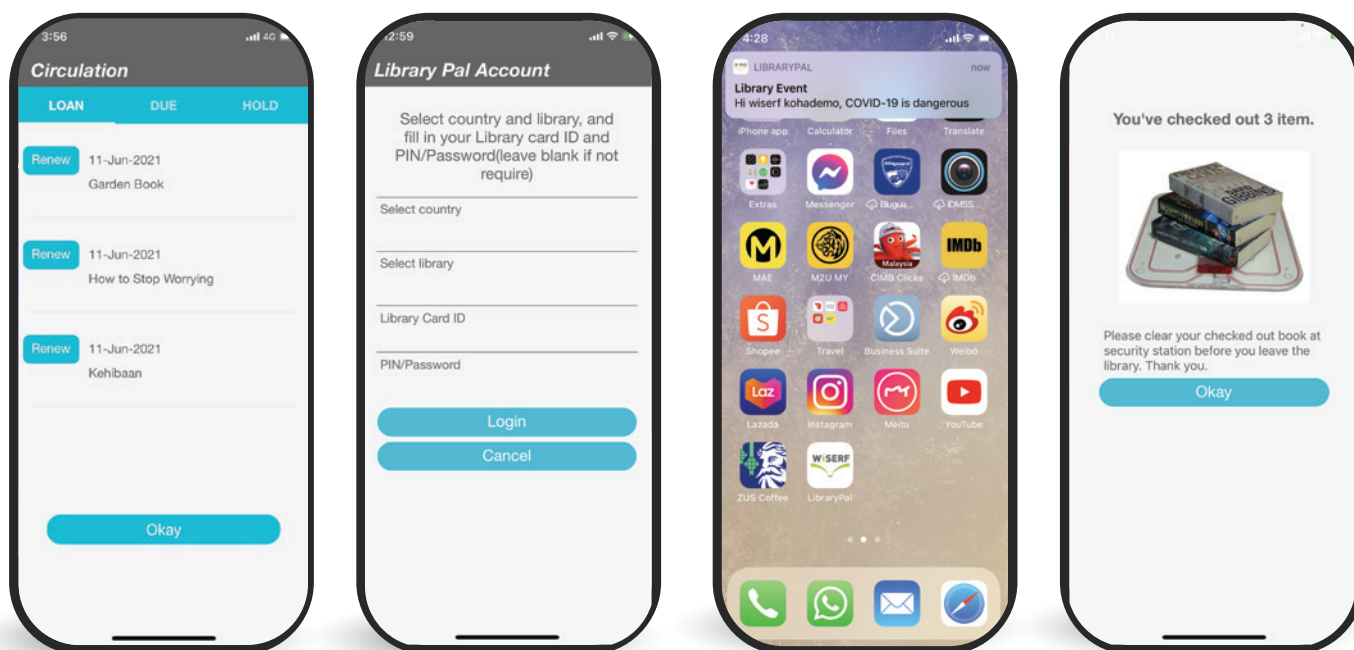

- Self-checkout books by snapping the barcode / QR code with smartphone
- In-app notification on the due date of checked-out items
- In-app renew items
- Hot item & New Arrival list
- Manages On Hold List (depend LMS policy)
- Virtual Library Card & Patron account status checking
- Library community news / messages
- Makes payment for fine & fees and member fees

WISERF LIBRARYPAL FEATURES

- Compatible with Android and Apple devices
- Compatible and optimize for different screen sizes and resolution
- Fully integration with LMS via SIP2 protocol
- **Patron account status:** on loan list, due item list, on hold list, outstanding fines
- **Virtual Library Card:** use for barrier access and circulation services
- **Check-out method:** scan barcode/QR code, NFC (near field communication at 13.56MHz), manual input book ID
- **Personalization:** select your preferred avatar, language and color theme
- **Optional:** RFID or EM Deactivator, payment module

WISERF ILS WEBAPP

Performs as content management web module allowing system admin to create accouncements, events, upload new book cover images, auto or schedule sending overdue reminder and overdue alert, as well as obtain statistic and reports on the usages.
